

PERRY INSTITUTE FOR MARINE SCIENCE

PRESENTS

THE 2009 SCIENCE SUMMIT

SEPTEMBER 23-25

GEORGE TOWN COMMUNITY CENTER
GEORGE TOWN, EXUMA

The 2009 Science Summit will be held in effort to promote coastal awareness with full immersion into marine stewardship and sustainability. Participants include 200 Exuma Cay students and faculty, grades 4-6. Lectures will be conducted each morning at the Community Center with follow-up activities in the afternoon. Opening ceremonies will include guests from Bahamas National Trust, Department of Education and The Island Administrator.

Topics will include:

Marine Invertebrates and Vertebrates	Conservation
Invasive Species and Organisms	Classification System
Ocean Zones and Inhabitants	Coral Reefs
Food Chain	Mangrove Ecology
Fish Forensics	Marine Debris
Climate change	Marine Protected Areas
